Subject: Increasing air pollution in Delhi

Sir/Madam,
Through the columns of your esteemed newspaper, I wish to draw the attention of the authorities and the public to the alarming rise in air pollution in Delhi.
The air quality in our city has deteriorated rapidly over the past few years. Vehicular emissions, industrial smoke, and construction dust have contributed significantly to this crisis. The smog during winter makes breathing difficult and causes various health issues, especially among children and the elderly.
I would like to suggest that stricter emission norms be enforced, and the use of public transport and cleaner fuels be encouraged. Additionally, planting more trees can help absorb pollutants and improve air quality.
I hope you will publish my letter to create public awareness and urge the authorities to take immediate action.
Yours sincerely,
Nikhil

Subject: Rising water scarcity in Gandhi Nagar

Sir/Madam,
I wish to draw the attention of the concerned authorities through your esteemed newspaper to the growing water scarcity in Gandhi Nagar.
For the past few months, we have been facing acute shortage of water, leading to severe hardships in daily life. People are forced to depend on water tankers, which is not a permanent solution. The depletion of groundwater due to overuse and wastage has worsened the situation.
I suggest that rainwater harvesting be made compulsory in all households and public buildings. The government should also promote water conservation campaigns to make people aware of the need to save water.
I request you to publish this letter to bring the issue to light and motivate the authorities to take immediate steps.
Yours sincerely,
Priya

Subject: Increasing traffic congestion in Chandigarh

Sir/Madam,
I would like to highlight the growing problem of traffic congestion in Chandigarh through the columns of your newspaper.
Due to the increasing number of vehicles, the roads are always crowded, leading to long traffic jams and accidents. People waste a lot of time stuck in traffic, and the air pollution caused by idling vehicles adds to the city's woes.
I suggest that carpooling and use of public transport should be encouraged. The government must also improve road infrastructure and introduce strict traffic rules. Creating more cycling tracks and pedestrian-friendly paths would also help reduce the number of vehicles on the roads.
I hope you will publish this letter to bring the issue to the attention of the concerned authorities and the public.
Yours sincerely,
Anil

Subject: Littering in public places

Sir/Madam,
Through the columns of your respected newspaper, I wish to highlight the issue of littering in public places.
It is disheartening to see that many people still throw garbage on roads, parks, and other public places without thinking about the consequences.

This not only spoils the beauty of the surroundings but also poses health hazards.
I suggest that awareness campaigns be conducted to educate people about the importance of cleanliness. Strict fines should be imposed on those who litter. More dustbins should be installed in public areas to make it easier for people to dispose of waste properly.
I request you to publish this letter and bring this issue to the notice of everyone to create a cleaner and healthier environment.
Yours sincerely,
Reema

Subject: Concern over the increasing use of plastic bags
Sir/Madam,
I would like to draw the attention of the public and the authorities through your esteemed newspaper to the growing use of plastic bags in Bhopal.
Plastic bags are used widely because they are cheap and convenient. However, they are harmful to the environment as they do not decompose easily and cause pollution. Animals often swallow them, leading to health hazards.
I suggest that people switch to eco-friendly alternatives like cloth bags and jute bags. The government should ban the use of plastic bags and promote the use of reusable bags. Awareness campaigns can also play a major role in changing people's habits.
I hope you will publish my letter to spread awareness and encourage positive change.
Yours sincerely,
Sahil
